Early Deadlines For Next Issue

Because the Times will be delivered on Tuesday, Dec. 21, instead of the regular Wednesday next week, news and pictures must be submitted by noon Thursday. Classified ads must be turned in by noon Monday. Display advertising deadline is 5 p.m. Friday.

Because of limited space in this issue, many items and pictures are being held over for the Christmas issue. Also in the Christmas issue will be the roundup of top news of Albany during 1965.

Proclamation

WHEREAS the East Bay Chapter of the National Safety Council and the Albany Association of Insurance Agents are conducting a campaign to reduce the annual Christmas season accident toll, and

WHEREAS the National Conference for Religious Leaders has asked all religious and civic leaders to cooperate in an all-out campaign to prevent tragedy on the streets and highways of our country, thus affirming their belief that man is literally his brother's keeper;

THEREFORE, I Lewis M. Howell, Mayor of this city, do hereby, on behalf of the citizenry of Albany, declare enthusiastic participation in the 1965 Christmas Holiday Safety Campaign and wish to call upon the people of our city to join in the effort to reduce traffic accidents during this year's holiday season.

I therefore urge the clergy of Albany to stress the moral aspects of traffic safety before their congregations, and I urge every citizen to be especially thoughtful of the rights of his neighbor, to drive by the Golden Rule, to set a good example for other drivers, to use and encourage others to use seat belts, to observe all traffic laws, and not to drive after drinking during the holiday season.

In addition, aware of studies which show that more than half of this area's serious traffic accidents in the month of December last year involved drinking drivers, I urge business leaders to discourage the serving of alcoholic beverages at office or company celebrations, unless transportation is provided for those who imbibe.

Dated: December 6, 1965.

Council

Supervisors Terminate Library Contract

Alameda County Board of Supervisors informed City Council Monday night by letter that it planned to take action Tuesday morning terminating the contract between Albany Library and the county library effective June 30, 1966.

Council directed Administrative Officer James B. Turner to attend the meeting of the supervisors Tuesday morning, when the board did take such action after stating its intention of working with the City of Albany in developing a new modified contract including terms yet to be determined.

In other action Monday night, Council filed a communication from City Attorney Lawrence Saler and Police Chief Ralph Jensen concerning preemption initiative petition and another from the health department declaring Albany a rabies area; referred to the pension committee proposals for charter amendments by the Police and Fire Pension Board, and directed Saler to prepare a resolution permitting City Clerk Myrtle McLean to destroy various papers in city offices.

It was decided to invite a representative of the newly-organized county art commission to the dedication of new city buildings and, at the suggestion of Mayor Lewis Howell, it was decided that the Council will invite the President of the United States, two senators, our congressmen and the governor to the dedication on Jan. 15.

What's Happening at That No-Front Solano Shop?

Old Albany residents were startled to see workmen ripping out the front of the familiar buff-colored brick building at 1483 Solano Avenue. Built 30 years ago by O. C. Yenne, pioneer Albany groceryman and former Mayor of this city, the store had been used in later years by a market and printing shop. The present owner, Jerome Blank, acquired it this year and announced his plan to remodel the 2,200 square foot building into two modern stores.

The entire front will be replaced with a new redwood and glass facade, and the front store will be occupied by a beauty salon. An exposed aggregate walk through an arcade will lead to the 1,000 square foot office which is being especially designed for use as professional offices.

The beauty shop has already been leased by Perry A. Thomas, who is moving his "Thomas' Hair Styles" from its Shattuck Avenue location, where it has been for five years. Applications are being taken for the arcade office.

'MESSIAH'

The 53rd annual performance of Handel's "The Messiah" will take place at Oakland First Presbyterian Church, Broadway at 26th and 27th Streets, Sunday evening, Dec. 19, at 8 p.m. An offering will be taken to help defray expenses.

Janet Vosburg; chaplain, Karen Fong. Retiring Honored Queen Karen Fong will preside as installing officer for the evening. Nancy Hamm will act as daughter hostess. The guardian and associate guardian of Bethel 52 are Miss Marjorie Ramsden and Howard Burdick.

My Word ...

(Continued from Page 1)

had an interesting experience recently. It's taken two weeks to receive their reluctant permission to print it. Seems they were out in a boat duck hunting near Suisun when the motor on another boat broke and man and boat were in danger of drifting away. Nestor and Bill hauled the boat back to the dock, refused the man's offer to pay them by telling him he could do somebody else a favor some time.

Within 10 minutes, their own boat hit a swell, took on water and sank, leaving the Albany men in the drink, still clutching their guns. Before long they had

abandoned the guns and were clinging to the tip of the boat, which had reappeared.

Unknown to them, the man they had rescued had seen they were in difficulty, borrowed a boat and was coming to assist them. He pulled them into the boat, towed Nestor and Bill's boat to shore, picked up their belongings that floated and took them to the duck club, where they had hot showers and were given dry clothing.

THAT, says Nestor, a survivor of the sunken USS Indianapolis, is casting bread on the water and having it return in record time.

QUITE A FEW HOMES were decorated by last Sunday and we hope many others will be looking festive by the end of the week. Be SURE to enter the home decoration contest if you're decorating this year.

SOCIAL WEEK — Our first week back on the job was filled with enjoyable events. Last Monday night the Albany Republican Women's club had its annual Christmas party at Heather and Thistle. Capacity crowd turned

out to hear Assemblyman Don Mulford. His remarks were off the record so we put pad and pencil away. Tuesday night was the Alameda County Employees' 40th anniversary-Christmas party at the top of the Bermuda building honoring legislators, special county officials such as the Board of Supervisors and the press. Thursday was the tea honoring Rae Volz, a lovely affair for a lovely lady. (Everyone is terribly pleased with the school board's choice of Kay Geering to replace Rae.) That evening we attended open house for the Four Friendly Realtors on Solano. The calendar for this week looks even busier.

What Is The John Birch Society?

The Truth May Surprise You!

This week we are celebrating our seventh anniversary. We are glad to take the occasion therefore, to give as much of an answer to the above question as space will permit, for those who really want to know. So —

I. Let's Start At The Beginning

The John Birch Society was founded in Indianapolis, on December 9, 1958. It was chartered under the General Laws of Massachusetts as a non-profit educational organization. We have lived up meticulously to those specifications (including not making any profit!) for seven years.

During these seven years we have sought to bring into The John Birch Society only men and women of good character, humane consciences, and religious ideals. For we are striving to set an example, by dedication, integrity, and purpose — in word and deed — which our children's children may follow without hesitation.

Members of the Society are of all races, colors, and creeds. We are of all social, economic, and educational levels. We are individualists who disagree among ourselves about many things. But we are firmly united in devotion to those beliefs, principles, and purposes which we do hold in common. For we have voluntarily joined together:

(1) To combat more effectively the evil forces which now threaten our freedom, our lives, our country, and our civilization;

(2) To prevail upon our fellow citizens to start pulling out of the deepening morass of collectivism, and then climb up the mountain to higher levels of individual freedom and responsibility than man has ever achieved before;

(3) To restore, with brighter lustre and deeper conviction, the faith-inspired morality, the spiritual sense of values, and the ennobling aspirations, on which our western civilization has been built. The long range objective of the Society has been summarized as **less government, more responsibility, and a better world.**

II. So We Collide With Communism

These purposes bring us immediately into conflict with the Communists, on two levels. For on the ideological plane the Communists seek always and everywhere to bring about more government, less individual responsibility, and an amoral world. And on the plane of action, until the Communists can be stopped from completing their subjugation of the whole world, there will be no opportunity for us to move forward at all towards our permanent goals.

We have undertaken, therefore, to play a leading role in slowing down, stopping, and eventually routing the Communist conspiracy. We realize that the one thing no conspiracy can withstand is the light of day on its activities. The only danger to their gigantic conspiracy which the Communists fear is **exposure**. For this reason, we do all that we can to bring to our fellow citizens more knowledge and a better understanding of the methods, the progress, and the menace of the Communist machine. In this undertaking we have become a new form of opposition to the Communists which they have never faced before in any of the vast areas they have already taken over.

So the Communists, grasping this fact very early, set out in 1961 to destroy us. The most official Communist publication in the United States is **The Worker**, in which the line is laid down for the faithful. During the last six months of 1961 there was, we believe, only one issue of this weekly paper which did not contain an attack somewhere in its pages on The John Birch Society; and a number of issues contained as many as six or seven separate attacks on us at that many different places. The Comsymps got the point, and have been carrying out the indicated program with increasing furor ever since.

Of course the Communists follow Lenin's basic strategy of advancing Communism by non-Communist hands. They could never impose the tyrannical rule of some three percent of a population over the whole population — which they repeatedly do in one country after another — unless they could inveigle enough non-Communists and even anti-Communists among that other ninety-seven percent into doing their dirty work for them. Deceptively appealing, for instance, to every motivation in human character, from sordid selfishness to "practical politics" to misguided idealism, they have gradually beguiled a lot of very good Americans into joining the attack on us. Until the maligning of The John Birch Society has now probably

exceeded, in intensiveness and extensiveness, that faced by any other organization in all American history. And in general our defamers do not even try to refute the facts on which we focus attention. They merely call us names for bringing these facts to light.

III. And Stir Up The Politicians

The John Birch Society is in no sense a political organization. We try to give our members information, understanding, and — we hope — even inspiration, which will make them better citizens. As good citizens they may take an active part in politics. But each member does so entirely on his own, working in the party of his choice, for the candidate of his choice, exactly as do members of the American Legion or of the Knights of Columbus or of the Rotary Club or a Baptist Church.

For we regard educations as the means, and political action as only the mechanics, for bringing about improvements in government. The mechanics will automatically be used when sufficient education has prepared the way. We mean it quite literally, therefore, when we say that education is our total strategy, and truth is our only weapon. Or, as made clear throughout the Blue Book and emphasized on its last page, our gigantic task is simply to create understanding.

Members of The John Birch Society, however, are extremely hard working, highly respected in their local communities, and always earnestly determined on behalf of any cause or candidate that they support. When circumstances bring any appreciable number together behind any particular candidate, their weight is out of all proportion to their numbers. And that weight is usually felt, of course, on the side of the Conservatives—of either party. So the Liberals of both parties naturally raise all the clamor they can against Birchers in politics. As the stranglehold of the Liberals on both parties now steadily increases, even Conservative politicians feel unceasing pressures to "improve their images" by joining the chorus of attack on The John Birch Society. Very few of them indeed have ever realized the extent to which they were running interference for the Communists.

A related part of the mammoth and many-faceted campaign which the Communists have now generated against us is the deliberate and widespread attempt to associate The John Birch Society in the public mind with the Communist Party, the Ku Klux Klan, and other so-called "extremists of the left and of the right." Our approach to the problems of today is so different from the viewpoint of the Klans that we have never knowingly admitted a member of any Klan into the Society. We estimate that about forty percent of our total membership is Catholic. Many of our finest Chapter Leaders are Jewish. And we are very proud of our small but growing number of Negro members, who are working so hard — and so courageously — with us to show our fellow citizens, both white and colored, how the Negroes are being used today by the Communists to serve Communist purposes.

So we have no similarity or sympathy whatsoever with the Klans. While the so-called American Nazi Party, according to J. Edgar Hoover, has **less than one hundred members**. And it is visibly given, immense publicity by some media for the very purpose of using it, by utterly false association, to discredit The John Birch Society.

Nor is this campaign intended to serve simply the purpose of a vague and general discrediting of the Society; or of merely discouraging our members and prospective members. There are plotters behind it who are obviously working towards a more specific goal. They wish to establish in the public mind, and then to formalize, the concept that since the Communists and Ku Kluxers and John Birchers are all "just alike," and since the Communists and Ku Kluxers are visibly "subversive," then The John Birch Society is "subversive" too. We believe it is to this end, at least in part, that so many high ranking politicians have been seduced into speaking out against us.

IV. What Have We Accomplished?

We have established a nationwide educational army. It has a fully paid field staff. This army is fighting with facts as its only weapons. And the whole army knows that to be better informed is to be better armed.

For help towards informing ourselves first, and then others, we established a publishing division. It is now turning out books and pamphlets with a retail value of about four milliondollars per year. We also serve

as very sizable distributors of the Conservative books and reprints of approximately one hundred other publishers. And our members now operate some 350 "reading rooms that sell books," scattered throughout the country — most of them under the name of American Opinion Libraries.

We have certainly helped to re-awaken, restore, and strengthen, in tens of thousands of Americans, the three great basic human loyalties: Loyalty to God, loyalty to country, and loyalty to family. The Communists know that they simply must destroy all three of these foundations of our civilization. For they can never rule "peacefully"—that is, without constant resistance—in any place or at any time where there is loyalty to anything except to the Communist state.

We were the first organization in the United States to start calling widespread attention to the world-wide Communist plot to discredit, demoralize, and destroy local police forces. Our members have distributed in leaflet form literally millions of our messages explaining what the Communists were doing in this area, and why. As a result, our **Support Your Local Police** drive has now won tremendous backing from patriotic citizens everywhere.

We are engaged in an entirely proper and constitutional movement to bring about the impeachment of the Chief Justice of the Supreme Court. As only one result of our educational efforts in support of that movement, we have awakened hundreds of thousand of our fellow citizens to the vital differences between a republic and a democracy. Many of them have come to realize the lengths to which our Founding Fathers went in order to give us a republic (not a democracy) — if we could keep it! And a growing number now understand how important it is to the Communists to convert this republic into a democracy as rapidly as they can.

Through the distribution by our members of huge quantities of books and pamphlets, we have brought a sizable and increasing fraction of the American people to recognize the high degree of Communist planning, influence, control, and purposes involved in the "civil rights" movement. Our increasing ability to get able, informed, and patriotic Negroes to join us in this effort, especially through continuous and widespread speaking engagements, has been an important part of this service to our country.

We have helped mightily to offset the emotional and extravagant tendencies of the prejudiced and the poorly informed to blame Communism on any one group or race or organization. The historical facts clearly reveal that the international Communist conspiracy reaches through every conceivable body it can utilize in any way to promote its ends. And we have insisted from the beginning that we are fighting the Communist — and nobody else.

The Factfinding Subcommittee of the California Senate ended the twenty-five thousand word report of its two-year investigation with these paragraphs:

"We believe that the reason the John Birch Society has attracted so many members is that it simply appeared to them to be the most effective, indeed the only, organization through which they could join in a national movement to learn the truth about the Communist menace and then take some positive concerted action to prevent its spread.

"Our investigation and study was requested by the society, which had been publicly charged with being a secret, fascist, subversive, un-American, anti-Semitic organization. We have not found any of these accusations to be supported by the evidence."

What we have accomplished, above all else, is to keep The John Birch Society alive and growing, as a rallying point for the increasing number of informed and patriotic anti-Communists. Our members have achieved this result, through staggering labor and sacrifice, despite unceasing harassments, and distortions of their actions, and pressures amounting in many instances to serious persecution. And we intend to keep on growing. For we believe the incredibly vicious and massive attacks on the Society have been due, in any final analysis, not to our mistakes and our failures, but to our successes and our progress.

V. Which Do You Choose?

We cannot give you here the full basis for that choice. But let's put down a few by point comparisons of the Society with its Communist enemies.

(1) The Communists seek unlimited power for themselves, over the whole human

race. The John Birch Society does not want any power at all over anybody, either now or in the future. Agreeing with Lord Acton that "power tends to corrupt; absolute power corrupts absolutely," the Society seeks to make progress towards its goals only by education and persuasion.

(2) The Communists believe that any means may be used to attain their ends. The Society believes that **improper** means are never justified by even the noblest of aims, and that means are as important as ends in any worthwhile civilization.

(3) The Communists always accuse their enemies — such as The John Birch Society — of exactly those crimes which the Communists themselves are committing. We do not bear false witness against anybody, about anything.

(4) The Communists believe that words should be used to conceal thoughts, and that promises are made to be broken. The John Birch Society believes that simple truth is the very core of morality; and that when we can persuade enough people to make truth the prerequisite to all statements and the accepted guide to all action, at least half of the world's problems will rapidly disappear.

(5) The Communists operate in secrecy and darkness. We follow the preponderant custom, among all American voluntary associations, of not publishing the list of our members. With that exception, The John Birch Society has absolutely no secrets of any kind.

(6) The Communists seek to break down all morality, all tradition, and to destroy the whole spiritual and esthetic sense of values which we have inherited. The Society believes that a reverent continuity in human affairs is of extreme importance; and that even the most desirable change should be made cautiously, in order to be sure that it constitutes improvement.

(7) The Communists believe that man is just a material combination of atoms, with no other purpose than satisfaction of the desires of the physical entity thus assembled. The John Birch Society believes that a Divine Creator has endowed man with a purpose and an "upward reach" which are far superior to, and frequently prompt a willing sacrifice of, the desires and needs of the individual himself.

(8) The Communists—Lenin, Lunacharsky, and many other leaders—openly preach that "men must learn to hate," and that only through spreading sufficient hatred can the Communists succeed in ruling the world. The John Birch Society hates nobody, not even the Communists, but only the evil which they do. The Society believes that love for one's neighbor and good will towards all men should be a fundamental motivation in all human relationships.

The Communists also **pretend** to believe—and some of them undoubtedly do believe—that Communism is "the wave of the future." We believe, instead, that the whole world is now tired of so much strife and bestiality, treason and immorality, cruelty and confusion, blasphemy and destructiveness, bitterness and fear, doubt and despair that always go hand in hand with Communism. We believe that mankind may be about ready to arise, shake off this Communist tyranny and terror, and move forward again towards a more enlightened and humane existence. We are doing everything in our power, by all honorable means, to create the understanding that will produce this result.

If you have what it takes, in character and courage, then by all means join us now in our epic undertaking. With the added effort of people like yourself, and with God's help —when and because we have deserved it—we shall break up this immense criminal conspiracy, and return a world gone crazy to sanity once again.—Paid Adv.

Vin Et Fromage Beethoven Festival Ends Thursday

Robert A. and Marilynne Blanc, owners of Vin Et Fromage at 1546 Solano, have announced that two evenings remain in their Beethoven Festival, which opens Sunday.

Because musically and culturally, the restaurant has contributed a great deal to Albany's image, residents are urged to take this opportunity to visit the unusual business where top flight performers offer excellent works. Tonight and tomorrow night,

from 6 to 11 p.m., different programs will be offered. Tonight's artists include Hiro Imamura, piano; Goodwin Sammel, piano; Mrs. Blanc, cello, and woodwinds from the Oakland Symphony.

Artists for the concluding program Thursday include George Nagata and Jean Williams, violin; Dean Williams, bass viol; Hope Greene, viola; Miss Imamura, piano; Nelson Green, French horn; Cyrie Perry, bassoon; Tom Rose, clarinet, and Mrs. Blanc, cello.

Fire Plug

One of the most combustible Christmas decorations is the ordinary Christmas tree. Fire tests conducted on spruce, fir, cedar and pine trees six to seven feet tall demonstrated that such trees require on the average only 36 seconds from the time of ignition to flame out, and that during this short period of time flames up to

25 feet in height are generated. From these tests it can be readily understood why fires involving Christmas trees frequently spread so rapidly to nearby combustibles, resulting in severe damage or loss of life. Various fire retardant coatings and chemical solutions for external applications to trees are available. These will to some degree retard flame spread. It is strongly recommended that, even though these flameproofing solutions have been applied, the tree be kept, while indoors, in a tub or reservoir containing plain water. The combustibility of artificial trees should also be tested. Some artificial trees are highly combustible. Such trees should be handled with the same caution

used for natural trees, and the pertinent precautions noted below should be observed. The following general safety measures are suggested: Obtain a fresh tree which has been stored outdoors and keep it outdoors until actually needed. Cut off the end of the trunk diagonally at least one inch above the original cut end. Stand the tree, at once in a container of water, keep in a cool location and sprinkle the branches frequently until brought into the house for trimming. Tree stands are available with a reservoir in which the trunk may be set. Lengthwise saw cuts in the base of the trunk will also help the tree absorb water. Be sure the tree is well supported and so located as to be away from fire-

places, radiators, heating stoves, radio and television sets, or other sources of heat. Keep the room as cool and moist as possible. Avoid the use of flammable decoration on or near the tree. Toy trains, motors or engines should not be operated under or near the tree. Use only electric lights, and see that all of the strings are in good condition and not frayed. If electric lights are placed on aluminum trees or trees of other metals, the tree should be connected to ground. Electrical devices such as tree lighting sets, decorative lighting outfits and extension cords which have been inspected and comply with safety standards of Underwriter Laboratories, Inc., may be

identified by tags attached to the conductors or by carton markings. Do not leave tree lights burning when no one is in the house. From time to time inspect the tree and see whether any of the needles near the lights have started to turn brown, if so change the location of lights. When needles start falling, take the tree down and discard it. An inspection should be scheduled each morning by someone of authority to determine the condition of the tree. It is well to remember that a small tree can be just as beautiful as a large one but less hazardous.

Christian Science: "Is the Universe, Including Man, Evolved by Atomic Force?" This is the subject of the Lesson-Sermon to be presented in Christian Science churches this Sunday.

A major theme will be ultimate supremacy of the spiritual laws through which God's will and government of the universe is expressed. The Golden Text is from I Chronicles (16:31): "Let the heavens be glad, and let the earth rejoice; and let men say among the nations, The Lord reigneth."

In addition to selected passages from the Bible on this topic, there will be readings from the Christian Science textbook. Among them will be these lines: "Suns and planets teach grand lessons. The stars make night beautiful, and the leaflet turns naturally towards the light. In the order of Science, in which the Principle is above what it reflects, all is one grand concord." (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 240).

The Christian Science Society of Albany is meeting at the church edifice, 1358 Marine Ave., Sunday morning services at 11 a.m. and the Wednesday evening meetings are held at 8 p.m. The Sunday school convenes every Sunday morning at 11 a.m. Everyone is cordially invited to come to the Sunday morning services and the Wednesday evening meetings, and all children are invited to come to the Sunday school, where they can learn more about God and His love for man.
